BIO

DJ Mysterons is an **open format party DJ** based in Kraków, known for delivering high-energy sets built around Hip-Hop, R&B, Reggaeton, Pop and House. Blending commercial and club sounds with clean mixing and dynamic transitions, he creates sets that keep the energy high and the people moving.

With a background in turntablism and international DJ competitions — including **1st place** at **IDA Greece** and a **World Final** appearance in Showcase Category — he combines technical skill with a strong instinct for reading the crowd. He has performed across clubs and festivals in Europe, including **Fest Festival**, as well as live stages and a **Caribbean cruise**.

Beyond the booth, he is also active as a **producer**, creating original music, remixes and edits, and is the co-founder of **Mind The Wax** — a vinyl-pressing services company and a record label, working with artists worldwide.
